This is a sample of the IBM which students will receive next week in their classes.

That time of year that many faculty members appear to dread, and that many students seem completent about is here-evaluation time

It's that mass of year-beginning next week-when students are asked to svaluate their professors in each of their classes and to give them grades of I through 5.

Beginning Monday and ending Friday, student evaluations will be given in all classes. Each student will receive two IBM computer cards and an open ended questionnaire.

The IBM cards have nine questions, and the two sands are identical except for the color. The student marks with gards exactly the same, answering questions about the instructor's mastery of the content, the teaching methods us-

ed, the fairness of grading, use of class time, reaching warmen objectives, concern for students, attitude towards course, overall effectiveness of the instructor, and the opportunity for the student to insessass knowledge.

For each question the student rates the instructor on a scale from I (low) to 5

Then the open ended questionnaire permits the student to make specific comments on these questions, writing whatever he'she pleases so the instructor will see them at the end of the semester. after final grades have been turned in.

The procedure will be repeated second semester as well, and the "grade" the instructor receives from these evaluations will be used to determine his/her salary for next year.

Homecoming!

Vol. 41, No. 7

Missouri Southern State College, Joplin, Mo. 64801

Free on Campus

Rain fails to dampen Homecoming spirits

Kappa Mu Epsilon got its compus decoration up Sunday afternoon, in time for the evening rains.

But despite the min damage, KME got fifth place and \$70 in competition for Homecoming. Other winners and the details of this weekend's activities am on some I with a pre-game story un Saturday's Lion action against the Wildcots of Wayne State m page 9 Meanwhile, classes dismissed at 12 noon wantenit for the allcollege cookout and to be everyone time to get floats ready for Saturday's parade.

Homecoming is, indeed, here!

NEA group asks 'no evaluations'

Missouri Southern's chapter of the National Education Association, largest fessor of business administration. teachers' union is the United States. An executive committee of that Monday and a letter to the president of the Board of Regents demanding immediate discontinuance of the present faculty evaluation system.

Declaring that the chapter "can no longer accept the concept of such an evaluation system being attached to pay," the chapter stated its position to be that nest year's salary adjustment "shall not be less than the rate of increase in the cost of living.

The chapter, in the letter signed by Rochelle Boehning, associate professor of mathematics who is chapter president, gave William Schwab, regent president, until Monday. Nov. 10, to give "a satisfactory response.

IF SUCH "a satisfactory response has not been received by this date," declared the letter, "we shall call a meeting lim discuss further action.

Soehning, contacted by The Chart yesterday afternoon, said he would have nothing further to say until Nov. 10.

Schwab also had no comment. Dr. Donald Darnton, president of the college, tall no saying the letter mes not addressed to him.

The letter, which is printed in full elsewhere in this edition, does not state how many members there are in the NEA chapter, nor does it make clear whether the NEA chapter is speaking for the ma-jority of the Missouri Southern faculty.

AT LAST REPORTS Masse were 47 members of the chapter which gives out of s Teaching Faculty Association organied in 1975. At that time it was stated that the organization was formed to "improve communications between the faculty and administration.

Dr. Joseph Lambert, associate prolessor of English, was the first president al Man association. Other officers were Dis Robert Markman, a saviale professor of history; Dr. Orty Orr, professor of

biology, and Carl Finke, associate pro-

organization consisted of Boehning, Dr. Henry Harder, professor of English; Dr. Robert Steere, professor of education; and Ed Wuch, assistant professor of physical education.

THE ORGANIZATION at that time was organized, said Lambert, Ill "belp deal with specific faculty problems on

Later the group associated with NEA. It is known that some members of the faculty have long favored a collective bargaining unit on campus, and although collective bargaining for public employees is not legal in Missouri-though legislation making it legal is likely to pass the next session of the Missouri General Assembly-there is a state "meet and confer" law, the meaning of which has been described by some lowyers as "ambiguous.

It is the interpretation of that law by some, however, that a teachers' organization can negotiate with a school board. That interpretation was held in a court decision in 1975, and the interpretation of "school board" has been said to include boards of regents.

A NUMBER OF Missouri Southern faculty members, however, are known to favor organization of a collective bargaining unit as soon as the law permits, or to operate within the existing law so far as

It is reported by reliable sources that members of the NEA unit at Pittsburg State University have met with Southern chapter members, both formally and informally. PSU's chapter is a collective bargaining unit.

Representatives from PSU reportedly met in Joplin with Southern members last Friday

The PSU unit is operating under last

Cancer destroys her body, but not Miss Dinges' spirit

Last Friday Lucille B. Dinges, 49-year-old assistant professor of English, died from the concer which had been destroying her body since the spring of INIE. It had never succeeded, however, in destroying her spirit.

Miss Dinges, despite days of agonizing pain, had continued in teach her classes through the spring semester of last year. She missed only a very few classes during the four years of her illness. And even then, she was in her classroom on days when leaser persons would not have been able to be present.

There were times, unknown is students and to many of her colleagues, when she would teach one class, dash to the hospital for chemotherapy treatment and then return for another them. There were days when it was difficult for her to more. but she taught class anyway.

When she first learned that she had cancer, Miss Dinges expressed feelings of pain, anger, frustration, and a heightened appreciation of life. Up until the last two weeks of her life she still had the latter. but she had lost the anger, and her frustration centered then only un her inability in do for herself those things she had always done and now depended on others for doing,

IN JULY OF THIS YEAR, when her condition worsened and the doctor told har she might have only three months Lye, she spent considerable time with

friends, making plans for her death, make ing funeral arrangements and malong final disposition of her personal belong-ings. When she notified her former department head, only moments after speaking with the doctor, will she would he mable to hand this fall and mad and had not long to live, she was methodical, precise, and logical

She did not cry. She simply asked for advice and some assistance in making some necessary arrangements. With the former department head and with her closest friends there were long in And. in the corridors of last third floor of St. John's Medical Center, there were long, painful walks.

The conversations were at things that needed to be done, of plans that to be made, but not morbid plana Instead, they were plans for living the final monthe without becoming unduly a burden an others. When she will the hospital, single said she would not return. She did not She chose to die al home with her leans. her pictures, and the same she

WHEN SHE HAD VISITORS during the last weeks, she always tried in prop herself up in bed, put im a cheery made, and in her dimly lighted bedroom-dim hide the deterioration which was taking place-she talked happily, especially with

With them she spoke of their plans for

graduate school, of their progress classes this fall, and of her own memories of amusing incidents in her academic career as a student. She regaled one group ane afternoon with a story of a taxi-cab driver struggling with her trunk as she arrived at Tulane University. On that day she was 18 days from death From her laughter, one would not have known.

And when the Student Senate and red roses is her at home a few weeks ago, she was deeply touched. Probably, the said to a friend, few things had meant as much to less as that southern.

BUT THERE WERE other actions which followed, and each visit, each card, each gift, see honor, only helped to me the main and had had gave her the remarks to go forth.

A friend reces spoke with her of the courage and had shown. Her reply was simple: "I really think its source is outside me, in those friends who have never failed to lend me moral support when I most need it."

One afternoon she asked that when it saz all over that her friends be thanked. She said it this way: "To all of you who has eased my burdens and my seesers for classes, thank you. Above all, thank you for your friendship, your support, and your compassion.

She once was she had my wanted to be a statistic, that although the average cancer patient lived five years, she

wanted to beat those had And for four years she tried.

IT HAD BEGUN THIS WAY, as she related it to a Chart reporter in 1977: "I was in the shower. It was laid, I didn't take a washcloth as didn't have it in there, so I just susped up my hand Going up the side of my breast I thought I felt something there. With a washcloth couldn't feel it, but with my hand hand ... I thought there was something there that wasn't in the other breast, and it scared me at first. Then I thjought, well, I'll wait and see if it goes away. Maybe it's nothing to worry about. It persisted and also get kind of itchy and the skin texture changed. I knew it was something.

But she put off going to the doctor. "It was so close to the time school would be out I decided I'd wait until graduation. Finals were coming up and I thought, What could a couple of weeks matter?' I discovered quite a bit, because cancer can spread very fast. It had gotten beyond the breast, into the lymph nodes and obviously already into the bloodstream since I had a recurrence of it in February."

AT THAT TIME doctors discovered a spinal tumor and brain lesion, and before she could begin chemotherapy, her ribs metastasized.

She had a radical mastectomy, followed by In cobalt treatments, monthly checkups, chest x-rays, and breast examinetions for a year

Then her back began bothering her and she had is bone soan. There followed another 15 cobalt treatments, further surgery (this time a hysterectomy) and chemotherapy treatments.

THERE WERE PERIODS of improvement. Then a year ago she broke a rib, and it would not heal. More tests followed. The cancer had spread some more. Walking became more and more difficult for her, but she continued to go on.

Then same July, 1980. There had been periods of double vision, other eye problams, and hospitalization was required. Scans were done. The cancer was now in the liver and the prognosis was three

"Sometimes I get a little low," she said one day, "I think averybody does that, though, whether you have cancer or not. I try never to get into a mood of self-pity. Sometimes I have felt anger and frustration, sometimes even a secon of outrage because it seems like such a senseless thing. I suppose we all say, 'Why me? I've got things I want to do; I could do without this. But for the most part I've accepted what has happened. I've tried to

work it out and take it in stride. "I HAVE NO ANGER now. I've never Continued on page 2

English Club plan activities

Members of the English Club are planning fine major activities 20 h the week and Rangeline at 6:30 p.m. for a Dutch treat dinner and then will attend the play athletics an Missouri Southern, and the in Taylor Auditorium. All English majore and minors as well as faculty are invited.

Wednesday the Club will hold a book sale as part of its regular acon luncheon in Room 311 of the Billingely Student

donated over 200 books have their and readers, and literature textbooks.

All books will sed for one dollar or less, offering students an opportunity to begin building their was libraries.

Lecturer to tell about religion

Bruce Fitzwater of Portland, Ore., will lecture on Christian Science at 2:30 p.m. today in room 313 of the Billingsly Student Center. His lecture is mattled "The Logical Certainty at Christian Healing

Fitzwater holds degrees in philosophy University. He taught philosophy and Tufts University of Hong Kong. In 1973 Fitzwater entered the full-time public practice of Christian Science healing and was some m as a representative of the Christian Science Church visiting university and college campuses. Fit is currently a member of the Christian Science Board of Lectureship.

In his lecture Fitzwater foose to Christ Jesus as setting the most consistent and clearest example of Christian healing. An examination at "Jesus' biblical explanation of healing power" and several present-day many where the understanding of this healing power has resulted in healing and regeneration are included in his lecture.

All members of the college community are invited to the lecture which is sponsored by the Christian Science Organiza-tion at Missouri Southern.

Regents adopt athletic policy. . .

Approval for Missouri Southern's Intercollegiate Athletic Policy was granted last Friday by last lines of Regents. The Tonight, members was attend the new policy, which was drafted by were theatre production of Angel Street. The Athletic Committee with the help of Dr. group will misst first at Ken's Pizza at 4th Dannes Darnton, president of the college, states INS goals of intercollegists policy used to achieve those goals.

Learned first in line policy was less three functions athletics and play as Missouri Southern

Intercollegiate athletics and three Members of the English faculty least basic functions, "says the policy, "(1) the personal development of student athletes. private libraries for the sale. Most if Die (2) a focus of public ettention on mis colbooks are composition texts, handbooks, lege, and (3) a source of entertainment for the college and general communities."

> To achieve these goals, the policy massiles ethletic activities into lines groups with said group having a specific purpose in the same of the policy.

FOREMOST AMONG THESE three are the sports to be "highlighted" by the college Of importance but would be the team's win-loss record and playoff participation. "These sports serve as a focus for public ettention to the leanets of the college said the policy.

The second grouping of sports would be sports for student participation. The winloss record of a team would mean little. Coaching time would be considered extracurricular, similar to that of a club advisor Funding for was classification would be nominal. Sports in this classification would have a role similar to those in the first but to a lesser extent.

Finally, class would be some sports placed somewhere between these extremss. A team's win-loss record would expect to be balanced. Financial support, in terms of coaching, performing aids, and travel, would be determined by the Athletic Committee according to need; these sports have, according to the policy. "_virtually no such role to play [in comparison to the first two groupings]."

THE POLICY FURTHER MILES that "Equitable representation at men's and women's teams across bases classifications would be important."

The decision as to which sports will fall into these categories will be made by the president.

"For a while the Athletic Committee and I will be working parallel on this dotision, but ultimately I will make the docision," said Dr. Darnton.

He continued to say that the implementation of this policy would hinge on the Emusal of resources seed to make the changes in some sports. For, he said. some sports would take more was well Man other to promote.

THE NEW POLICY also states that athletic directors should mil coach, if possible, "and certainly should not be the head coach of a major sport," according to the mew policy.

"There are probably two answers to this question. First of all certainly, during m season can a person give attention to coaching, teaching and administrative responsibilities? Secondly, is athletic director is involved with how much goes

to what sports. This could cause problems in terms of accusations of favoritism toward one sport, especially where there is no system of checks and balances," said Darnton.

Also the policy states that, "Considerstion will be given to the replacement/reassignment of the incumbent athletic directors."

IN REFERENCE TO coaching assignments, coaches would be expected to teach as well as their duties as a coach; also, athletic administrators would be axpected to carry a class load.

Darnton expected that there would be no full-time coaching positions at Southern. However, he said the Athletic Committee might choose to change the fraction of time for coeching and time teaching for some sports.

Also addressed in the policy is the redistribution of performing aid from one sport to another, and a review of the academic standing of the students involved in the othletic programs.

Report says grade inflation still a problem

MI-(CPS)-Despite indications from individual campuses and administrators and faculty members are successfully fighting grade inflation, a national study of sollego grander just released bere contends that grade point averages are not declining at a very rapid rate.

Arvo E. Justa, who conducts an annual survey m grading trends for Michigan State University, some that while averages may have stopped rising, they Bear start promit up main soon.

JUOLA'S REPORT shows that the imtional grand point average (GPA) for fall, 1978-79 was 2.720, compared to 2.719 the year before. In 1960, though, the national average was 2.28. "The recent fall in GPA is minute in comparison to the 14 years of rising GPA," Juola wrote in his report.

Administrators and faculty members have long fretted that rising grade point averages and the increasingly-frequent bestowal of academic honors were cheepening the value of college educations. A number of academic organizations began in 1974-the first year Juola studied grade levels-to impose stricter grading standards.

A College Press Service report of September, 1979, found that the most common wespon again grade inflation was the administratively-mandated grade distribution. Por instance, only a certain

percentage of students in any one class "forms are majore got A's nevertheless. could receive the top grade.

THE RESULTS SO FAR have been mixed. The composite GPA at the University of Rochester, for example, fell from an astounding 3.0 in 1974 to an improved but smaringly high 2.9 in

University of Missouri-Rolls faculty members worked fall, 1979, averages down to 2.62, the lowest since 1971

At the University of Hewan-Manos. where A's had been the most common grade given since 1971, administrators have forced decreases in the last three years. Twenty-nine percent of last fall's

NATIONALLY, freshmen's grades are lower. A January, 1980, UCLA study discovered that nearly a third an inst year's freshmen had GPAs at 3.0 or under That's a minor increase from 1978. Yet grade inflation has remained stubbornly on the rise as some campuses. The University ill Arizona, which somehow

had resisted earlier inflationary pressures, records a student GPA rising to 2.32 last year, up from 2.19 in 1974. At the University of New Mexico, the

1976-79 GPA rose to over 2.45 from 2.49, despite what was dean as a lack of evidence that students are studying

October 27, 1980

Pre-registration to start Nov. 17 for 2nd semester

Pre-registration for the second semester will begin Monday, Nov. 17, and continue through Dec. 5.

Currently enrolled students will be permitted during that time period to make class selections for the second semester, meet with their advisers, and complete the re-registration process

Activities begin with those students having 90 or more hours or who are candidates for the associate degree in May, 1981, pre-registering Monday and Tuesday, Nov. 17-18-

On Thursday and Friday, Nov. 19-20.

Students with 30-59 hours enroll Monday and Tuesday, Nov. 24-25, and those with 0-39 hours registed Monday and Tuesday, Dec. 1-2.

The process begins by making appointments with advisers, securing the permit to enroll on the day scheduled, and meeting will the adviser to complete the

Thursday Friday, Dec. 4-6, and given over to verification and adjustment.

Pre-enrollment for students who are not those students with 60-88 hours may currently enrolled begins Dec. 9.

Omicron Delta Epsilon sets annual dinner meeting

The annual banquet of the Missouri Southern chapter of Omicron Delta Ep-ailon will be Monday, Nov. 3, at 7:30 p.m. at the Bonanza Steak House, 15th and Rangeline in Joplin.

The national economics honor society, Omicron Delta Epsilon, recognizes outstanding scholastic achievement in the field of economica.

Scholastic awards will be presented at

the banquet to ODE members. There will be a guest speaker. All members, past present, and urged to attend. No reservations am required. Former members are required to notify in terested pour is who may be me of the eres of the banquet.

For further information, contact Dr. J.S. Jaswal or Dr. Charles Leitle in the School of Business Administration.

NEA from page 1...

year's contract, baving failed to reach agreement with that university's admunistration on contracts for the current year. A federal mediator was at Pittsburg last Thursday, and it was following that mediation session that PSU members came to Joplin.

WHILE THERE HAS been strong feeling in some sections of the feculty for chive bargaining, it is felt by some that the movement has "picked up steam" this year in particular because of the faculty evaluation system.

A new, revised evaluation system is being used this year, and it has been described by some as "the straw that broke the camel's back.

Membership in the local chapter of NEA has increased this year, but no figures have ever been made available as to the exact membership, its numbers or its membership rolls.

Other feculty members contacted yesterday expressed resentment over the letter's not making clear that the NEA chapter was speaking for a small portion of the faculty.

William Schwab Jr., Promount MSSC Board of Regenta 2700 East 16th Street Jonlin, Missouri 64801

Dear Mr. Schwab.

The NEA Chapter of Missouri Southern State College has met and after careful consideration has determined that use of the present faculty evaluation system must be discontinued immediately. We can no longer accept the concept of such an evaluation system being attached to pay.

Insofar as we no longer accept such a system and since past salary adjustments have been weefully inadequate in terms of inflation, it is our position that next year's salary adjustment for all faculty members shall not be less than the rate of increase in the cost of living.

We are willing and ready to meet with you concerning this matter. Because of the critical nature of this issue, we shall expect your response by Monday, November 10, 1980. If a satisfactory response has not been received by this date, we shall call a meeting to discuss further action.

Rochelle Boehning President .

Sincerely yours.

Homecoming gets underway!

Voting for Homocoming Queen was held yesterday, and although a queen has been chosen announcement of the winner will be dislayed until the Missississicookout tomorrow.

Sixteen organizations sponsored Homecoming queen tandidates has year and out of these 16 candidates seven were chosen as finalists.

Debra Ann Gipson, a sophomore from Carthage, making in basis is being aponsored by the Student Music Educators National Language and Greg Fisher is to escort.

Rayma Hartley, sponsored by the Computer Science League is a juntor from Joplin majoring in management Technology. Her escort is Mark Sunh.

Marilyn K. Knaust, a former in the pareing program is specimen by the Student Nurses Association. Jim Edwards was chosen to seems.

IVY PUGH, sponsored by the Fellowship of Christian Allians, in a senior from Golden City, Ma., majoring in pre-med and biology. Randy Kriewall is her escort.

Genea Routh a Springfield sophomore is majoring in elementary education and is being spensored by the Baptist Student Union and is 10 be escorted by Tim Warren.

The Pershing Rifles are sponsoring Stephanic Ruble will David Gaumer as her escort. Ruble, a freshman business major, is from Mt. Vernon.

The last of the seven queen candidates in Linda Talken. Sponsored by the Residence Hall Association, Linda is a junior from Festus, Mo., majoring in dental hygiene. The last not chosen an escort as yet.

Other activities taking place it week to the week Monday.

RESIDENCE HALL Association was the first place winner and first prize see

_Opinion

On naming rooms

Not much more needs to be said about Lucille Dinges than has already been said elsewhere in this meanagemen. Her own words appear for harself and demonshible the sources and honesty that she showed in facing death.

What is not said, however, is anything about her maching and her work with students. It is true that not every teacher is loved by severy student, but Mass Dinges might have come closer than mout. In fact, little a few than Define Miles Chayes' Beseril, a woman second by The Chart office and spoke of the debt of or will de nine award Miss Origes. That beds was a simply one. Miss Dinges had made it publice low the mumen's son to supposed in freshman promises from Miss Dingels had shown sudgets a topoda pribminismou lina revisualipriosi that much the student to fines the class and the particular Walnut Miss Dinges, that some might have dropped stut at settlerd.

That Miss Dinges was a fine teacher is That what and did for the same student-and tot others-has been done by professors and is without a serion.

It is that, therefore, our period hore to Dinges. We think her life speaks was enough for itself to 30 that. But what works to mind is this: As Miss Dinges' reminds us of the services she did for many students and means remind us of the services offer faculty members do for students, land it time to pay proper tribute to some of these people?

Student Senate is considering names for 100ms in the Billingsly Student Center. That Center was narried for the first president of this college, a man who had demonstrated his own soncern for and I level in mailents. We think it only fitting, therefore, that rooms in the Center be named for faculty members.

We think it appropriate, to begin, that there is a Lucille E. Dinges Room, a Francisco R. Colon Room, and a Delbert Johnson Room in pay tribute to three specific faculty members, now deceased, who, by their we now to this college, demonstrated the ultimate commitment to the college: Successful teaching

We think it time that faculty members who over a long period of time have demonstrated their concern for the academic pursuits of this institution | paid the honor

While it might be nice to memorialize Sarcoxie, the Indian chief by naming a road after him, and by honoring other historical figures, the college, in the final analysis, becomes what it becomes through the efforts of dedicated, concerned professional educators. To them should the college express its debt of gratitude.

A needed policy

The new Intercollegiate Athletic Policy for Missouri Southern is a policy greatly needed by the college for many years. Finally, we hope, there is a means by which we can actually control and regulate athletic policy and behavior.

Yel there is end aspect which has been overshadowed for a long while but has finally been addressed in this new policy, that being internal athletics. It is here, in internal sports, that further development needs to take place. Student participation needs | sought, however, in order to build this program.

Back to Intercollegiate athletics, we shall finally have un organized focus to work off. Instead of attempting to introduce new sports, we should continue the refinement of the sports programs offered.

Finally, the re-evaluation of performing arts scholarships to the varied sports in addressed in the new policy, something that has needed consideration for a long white.

However, no matter how good the policy tooks on paper, there is only one way to understand Its value; that is for us to see it in action.

II _ AND NOW VICE PRESIDENT MONDALE WILL CLARIFY WHAT PRESIDENT CAREER MEANT BY A DANGEROUS HAREBRAINED REAGAN. "

CLARK SWANSON: Does man deserve the joy of art?

By Clark Swanson

Many things happened this past week; some events are painfully apparent, while others must be given time and thought to determine their absolute worth. Nonetheless, the week was eventful.

There are topics which I wish to cover, yet after a dose of Voltaire in the early morning hours I leave those topics to better writers than I, better thinkers than L

BUT WHAT I HAVE DECIDED TO DISCUSS is art, not for art's sake but for my own in order to explain the seemingly low moral value which we place on art.

In a recent visit to a city beyond the realm of the Bible belt I spent considerable time gazing, and occasionally questioning, pieces of art spanning a variety of cultures and modes of thought.

I saw the works of the great musters of the craft, Dali, Picasso, Monet-just to drop a few names, for most of the names I can barely remember and can't pronounce. During those hours spent gazing I envied their ability, wishing that I could hold their talent for painting but most of all their sheer intelligence, the ability to see the logical and transform that into the abstract. One observed the types of brush strokes used, the amount of paint laid upon the canvas, the detail, or lack of it, in the

objects; yet more importantly to myself was the mind of the artist I continually found myself in to buy. Upon entering most galleries the saleperson arwa, especially of Dali, at the brilliance of thought, the powerfulness of the work-all the time confronting the meaning of the work to myself. That try to wonder what it would be like to own a fine perhaps showed the artist's greatest brilliance, in the fact that he actually set lesser minds to thinking and wondering about this strange piece of art.

MOST WILL SAY, and I agree, that art, in any form, comments on manus aspect of the society in which the arries lives. True, yes, but still people will gaze at a piece of work, commenting on the artist's ability to paint and talking of art for art's sake. Let's reserve this preceding for the Country Club Set-sad but true, the irony is that the CCS are the only ones who can afford to buy and appreciate it

Rather the beauty of a painting is contained in the mind of the artist. To admire this we have to go beyond brush strokes-yet we ranged but help to admire the mastery of any craft-instead we have be explore his mind through the craft. To do less than this is neglect. Art is not for art's sake; art is for man's sake.

And if I say so myself, man does a rather admirable job of lowering am to a plain of financial

WHILE IN THIS CITY, I often stopped in

galleries, again to gaze, but with a slight intention paid little attention to me, accepting me for what I was, a poor college student who came to admire and piece of art instead of buying prints. However, at man gallery the salesperson began wondering about my intentions after watching me gure for a persiderable amount of time at mrs particular work.

She asked, "Are you buying?" "Maybe," I said. Very simple, so she backed away again leaving me to my pleasant maments of admiration.

Then she returned, saying, "We do have a time payment plan." I turned and looked, and assuming that I was ignorant of the economic term, she qualified it by saying, "It is sorta like a lay-a-way

dealer was putting a work of art up the same level as n washer and dryer set from Sears; it's not like I am buying a '64 Chevy for the little lady. Folks, we're talking art, the kind of dream of owning only in those moments of high thought and ambition.

I WAS DAZED and rather insulted; this art

Hat I told her that if I bought, I would pay for it in one lump sum. This wasn't a financial matter, it was a matter of the soul.

And now, I begin to wonder if men deserves art.

JULIAN BOND: Vote all the way down your ballot

By Julian Bond

Don't forget to go all the way down your ballot on Election Day. Those elected to lesser offices on Nov. 4 may affect your future as much as will the man elected president.

Among them are the state legislators about whom a New York jurist once said: "No man's life, liberty or property are safe while the legislature is in see SIOT.

That is all sos true! The legislatures of the SG states will next year help to determine whether President Reagan or President Carter-as well as President Bush an President Mondale or whoever was elect in 1984 and 1988-will shrink or expand federal taxes and spending. The commander-in-chief can wage war or promote peace, but the men and women in the state legislatures will influence which of these options he takes.

HOW? STATE LEGISLATURES DO NOT vote on federal issues, of course. The Texas House and the Tennessee Senate won't cast votes on the MX missile or the minimum wage. But they and their colleagues from Maine to Hawaii will determine the districts from which we will elect mur representatives in Congress through the decade beginning in

Drawing the boundaries of congressional districts is an exercise in politics, not geography. The party that controls the state legislature tries to gerrymander the districts so as to maximize its chances

of winning seats in the House of Representatives. Depending on who is in charge of the process, innercity blacks may get their nem congressional district Sunbelt. The Census Bureau estimates that between

such a way that their votes mu largely negated. year's same legislative range would likely mean m shift toward the Republicans in the House of Representatives two years from now. And that reforms of the last III years.

IN 26 of the nation's state legislative chambers, a switch in party affiliation of six seeds or fewer this November would transform the minority

party into the majority. If the Republicans maintain their narrow hold on three many means in the State Senate, for example, they will gain undisputed control of the Keystone State's Legislature-and with it the right to reapportion Pennsylvania's congressional districts.

The upcoming redistricting should be of special mintern to us because of the shifts in population since the last census.

Eight states-New York, Illinois, Ohio, Pennsylvania, Massachusetts, Michigan, New Jersey and South Dakota-are expected to lusa seats in Congress. Ten states-Florida, California, Texas, Arizona, Colorado, New Mexico, Oregon, Tennessee, Utah, and Washington-will likely gain seats to reflect the movement of Americans from the Northeast to the South and West.

THE EFFECT of another population movement may be as dramatic as that from Snowbelt we to be parceled out to several suburban districts in 80 percent and 90 percent of urban congressional districts have lost residents, In both Los Angeles That explains why Republican victories in this and Chicago, seven such districts sam their population dwindle. Five districts in Detroit and Philadelphia experienced similar declines.

This means that urban clout-and minority would mean a shift away from the progressive clout-is likely to diminish in Congress. Eight members of the Congressional Black Caucus are among those who face major adjustments in the boundaries of their congressional districts.

Oddly, the party with more to lose from reapportionment has done less to cut its losses.

WHILE THE NATIONAL REPUBLICAN Parthe Pennsylvania House of Representatives and win ty spent more than \$2 million electing state legi. .ors in 1978, the national Democratic Party spent no money at all. That spending paid off in a Republican gain of 275 legislative seats.

The Democrats apparently did not learn their lesson, for the same disparity in support is continuing this year. And the Republicans now have been joined by the variant right-wing political-action committees foresighted enough to spend money on state legislative races that can advance their cause much as can a victory by Ronald Reagan.

So after you have cast your vote for president, keep on voting. Remember, the state legislator you elect may have a big say over your life, liberty, and

I WILL NOT LET WORRD ANDERSON BOTHER ME.

SO MUCH FOR HIM.

NOW I CAN CONCENTRATE

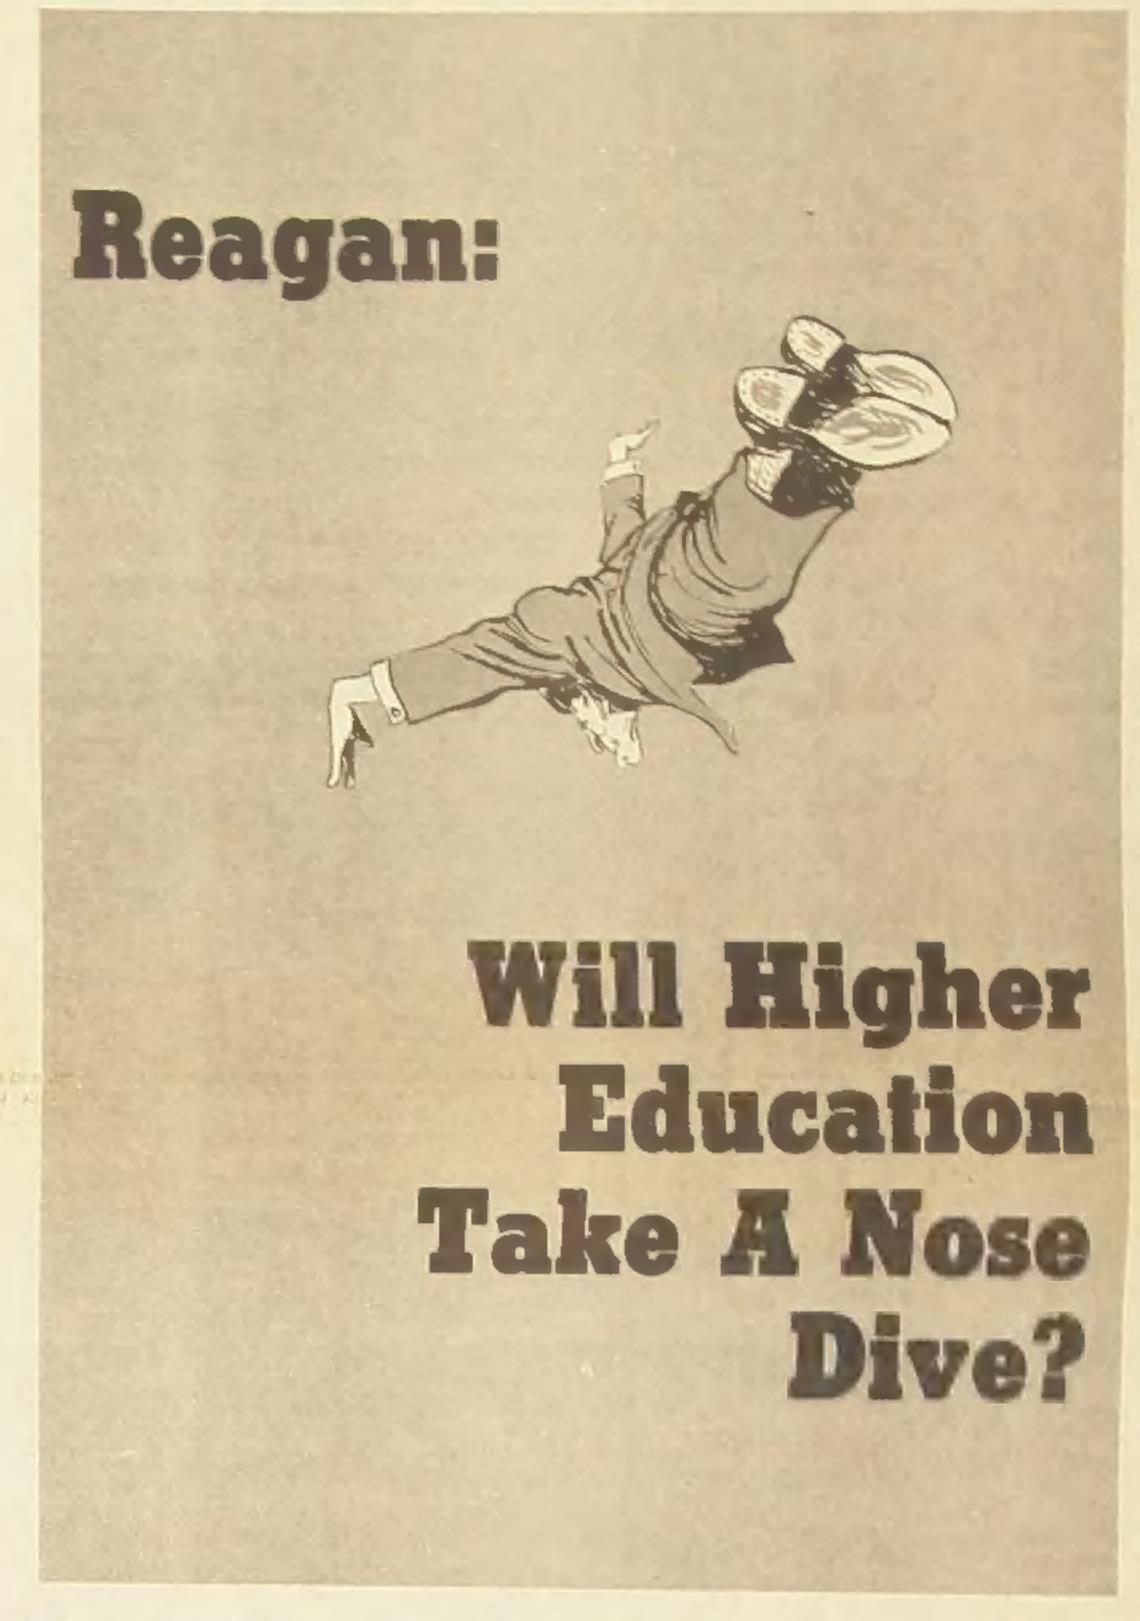

The Charl, the official newspaper at Missouri Southern State College. is published weakly except during holidays and examinations from August inrough May, by students in journalism as a laboratory experience Views expressed in The Chart to not necessarily represent the opinions of the administration, the faculty. or the student body.

On Higher Education:

'We'd prefer a non-Reagan candidate'

By Helen Cordes

By Michael Arkush

WASHINGTON, D.C.-CPS-Ask virtually any member of the higher educa-tion lobby here which presidential candidate would do the most for colleges and universities, and most likely the reply will be a pause, and a sigh.

"We would prefer a non-Reagan candidate," notes the leader of an education group. (He, his many others, declined to have his association identified because political endorsements are forbidden by Internal Revenue codes governing many non-profit groups.)

The "lesser of two evils," according to most lobbyists, in President Jimmy Carter. "Just look as the Republican and Democratic platforms," advises the same education group head. "I think most groups prefer the educational platform of the Democrats."

BERKELEY, CA.-CPS-Once upon

time, in 1966, when Clark Kerr was presi-

dent of the nine-campus University of

California system, most Americans

force against the students.

the kids.

REP. JOHN ANDERSON, the third most-discussed candidate, is usually dismlssed as "a spoiler," at least by Barbara Lawless of the National Education Association (NEA). "One shouldn't waste votes on him.

Lawless and the NEA, however, are a 1.9 million-member teachers union, union, trolled 302 votes at the Democratic convention that nominated Carter. Three of its former executive officers are members of the Carter administration, and it largely wrote the party's education platform.

Carter support among other education lobbyists in Washington is much more equivocal. Even those who privately confessed support for the president hedge the support with criticisms of the administration's education policies.

THOUGH MANY LOBBYISTS ap-

plaud Gov. Ronald Reagan's desire to stem federal "intrusions" into school policies, they quickly question how far a federal withdrawal should-or could-go.

The lack of enthusiasm for any of the candidates has convinced some lobbylets they should simply stop agonizing over very much pro-Certer. The NEA, which is them. Phil McKeaney of the American Federation of Teachers (AFT), the second largest teachers union, says that me education issues "leadership seems to come out of Congress anyway.

Adds Charlie Lee of the Committee for Full Funding of Education Programs, "There's a healthy tension between an administration and Congress, with Congross in the lend.'

Lee nevertheless says that presidents do make a difference, noting he felt the education committee did better under Johnson and Carter than under Nixon and Ford.

Clark Kerr still bitter about Reagan's role heights, the num governor didn't do much

> "SOON AFTER he took office, the momentum was lost," reflects Kerr. "He would always attack the system. All of a sudden, everything stopped in its

> To itemize his discontent, Kerr proceeded to list a number of actions Reagan took which, he says, kept the system from growing during Reagan's two terms. The most significant, of course, was Reagan's fiscal stinginess in reducing the budget outlays to the system, Kerr insists.

The real resources that go to each stu-Continued on page 7

Reagan 📨

Views of the three magins candidates for president are compiled here by the Obilege Press Service.

RONALD REAGAN:

If the education policies of a Reagan presidency followed those of the Reagan candidacy, the mixt four years would feature less indees intervention in school policies, less federal aid to schools and students, and more state and local controi. The most visible effect would be the dismantling of the Department of Educa-

Though the Washington, D.C., education community was by no means united in its approval of the new department, which was officially born last May 1, these now seems to be a general concurrence that destroying the department would be at least a symbolic defeat for education.

"I think that statement (promising to dismantle the department) struck a nerve in a lot of people," proffers Tom Duffy, president of the American Student Association.

Terry Herndon, executive director of the pro-Carter National Education Association (NEA), which was perhaps the most insistent advocate of the new department, lan't sure he'd want to keep the agency if Reagan won. "An education department under a President Reagan is something we'd like to think twice about," he says.

"It might be easier to let the department go, he adda.

The campaign's education views on key

FUNDING: Reagan's January policy on education asserted he wanted to maximize control [of school policy] by parents, teachers, and local school boards" by transferring responsibility for funding back to the states. In other words, explains Reagan deputy press aide Ken Towrey, "states that wanted to continue federal programs would have to raise

"A good deal" of the federal financial aid, handicapped student, and affirmative action programs "would probably con-tinue," Towrey adds. But Reagan would probably convert some of the money spent on them to "block grants," which would go to communities, which would spend them am they feel like it.

FINANCIAL AID: The Republican platform pledges "to enact tuition ins credita," an aid program that was rejected in 1979 in favor of President Carter's plan to expand grants to middleincome students.

QUALITY OF EDUCATION: Roagan and the 114 page section of the Republican platform that deals with education agree that the federal government is responsible for low-quality learn-

As Reagan's January policy statement put it: "Since 1962, when federal aid to education began, pre-student costs have increased and test stores have fallen virtually in proportion to the rise in federal spending for and control over education."

Roagan fails to note, though, that the largest single aid to education program in American history was begun in June, 1944, when President Roosevelt signed the G.I. Bill. It gave aid to millions of veterans attending college. Standardize scores peaked in 1963, some 19 years after federal ald to education began.

JIMMY CARTER

The Democratic platform's education arctico is 614 pages long, a fact our crecification on experience population to the ing to discuss capilidate concern for hears.

But echocation leably tota readily outpures CHARLES OF CAPTER & PARTY OF MAKERINE warfer of his even becare in said so refuer tion than any other president, says Stave Liefman of the Coalition of Private College and University Students

(COPUS) But Career, he adds, shell always follow through on his prepasals. "In many of the education policies introdued the administration had to be prodded to carry them out. Moreover, I don't think they always pick the best people for alots at the Department of Education

Jerry Roschwalb, director of govern ment relations for the National Asserts. tion of State Universities and Land Grant Colleges, agrees that in many instances the administration wasn't out there

Still the Carter campaign's education policies-authored by the NFA-do ar peal to most education lobbyists confacted by the College Press Service. Among those policies:

FUNDING: The Democratic platform favors "a steady increase" in federal education support, aimed at equaliting funding and opportunities from state to

FINANCIAL AID: While supporting "tax aid for private schools," it wants to withdraw it for "segregationing academies." (The Republicans have pledged to oppose afforts to remove Lasexempt status for private and religious

The administration has axpanded the amount of grant money available to lower-income students, and has made middle-income atudents eligible for federal aid programs for the first time. As a budget measure last apring, it also cut \$50 off each National Direct Student Loan. It has opposed tuition tax credits.

TEACHERS UNIONS: While the Republican platform 'opposes any federal action to establish 'agency shops' in public schools," Carter's support for teachers unions is unquestioned. Both the NFA and the American Federation of Teachers [AFT]—the two largest unions are campaigning for the presi

Anderson

JOHN ANDERSON

Education observors accuse John Anderson of inconsistency. Eduarde Wolle, lobbyist of the U.S. Student Association, says Anderson "tends to vote to authorize educational programs,

but then votes against funding them."
"He has done this," codes Bruce Post, administrative assistant at Anderson's House office. But Post sees no inconmistancy in the tendency.

"Without that initial authorization," he says, "the program wouldn't even get on the shalf. It's just that often Mr. Anderson doesn't agree with funding lovels and priorities in funding positions.

The AFT gives Anderson a meager 28 percent "right" rating on education and labor leaues, while the NEA assesses him at 32 percent. Representatives of both groups complain the congressman was absent when votes on most education

bills came up. Anderson has one policy paper on education. Among the points:

FUNDING: Anderson voted for the creation of the Department of Education, aid to handicapped students, and new vocational education programs. However, he voted against appropriating money for those programs.

FINANCIAL AID: Anderson says that, as president, he would increase the amounts of money available under Basic Educational Opportunity Grants and the TRIO program for disadvantaged students. While his policy paper notes a "renewed commitment for work-study" programs, he has voted against forcing employers to pay college students the minimum wage for part-time Jobs.

Observers like Tom Duffy of the American Student Association says Anderson's opposition to military registration has helped his campaign on campus. But Duffy now senses that "students are becoming more cynical about Anderson" because of his lack of specific statements on education issues.

HIS NAME, of course, was Ronald

Reagan, and he was elected. Two weeks after the inauguration, Kerr, who as system president for 14 years had built a reputation as one of America's foremost educators, was gone. A stronger policy against the students was set in motion.

"He quickly used the police to squash the students and their supporters; he used them loosely," Kerr remembers, "so that they would know who was it control. That's why he got rid of me. I didn't want to use force.

Thirteen years later. Kerr is still bitter. He also accuses Reagan of crippling the quality of the state's higher education system. For a mute whose reputation for collegiste education had risen to new

to bolster that position, says Kerr.

tracks.

Alternative energy sources key to nation's future

By Denise Honsen

Development of alternative energy warms for help Americans new with high energy demand and diminishing same

Art Boyt, a former biology teacher at Southern and carried instructor for alternative energy and Elestyles at Crowder College in Neosho, statuted how meets needs of tomorrow can be met with upconventional alternatives

Conventional energy supplies are hydro-electric, nuclear, wood burning and has I hada. Controversy over the danger of nuclear power waste, poor wagefossil fuels demand utilization of alternatives like wind generation, solar power. forest management, refurbishment of old water dams and the production of alcohol and methans fuels.

"ALTERNATIVE ENERGY sources are renewable energy sources." Boyt said. Two light that a dress themselves to fossil farm are alcohol and methane fuels Alcohol, derived from plants was displace about 10 percent of our food supply. Boyt said, "Mallame fuel can provide 4 in 6 percent of our nation's energy from conremaion of garbage and manure." In the case "you not only get a good fuel but a good furtilizer," 80 said.

Alternatives for conventional security generation are word burning, refut-

Today "wood energy is being increased by those using wood stoves," and Boyt. This treates a need to manage forests ty grid as it could be distributed to where rather than mining them. He said, "The it is needed potential is to produce about 10 to 12 per-

cent (of our energy from wood) on a non-depletable lands. Boyt added, "Removing bounded will deplete the forest son, therefore, there is a best to return ashes to like forest floor.

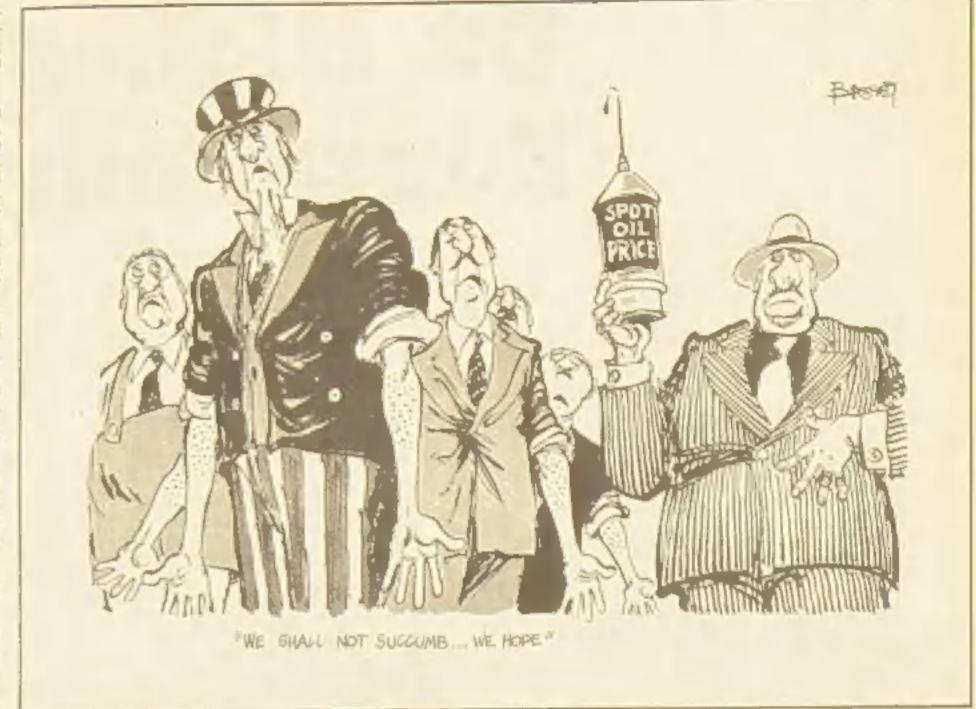

HYDRO-ELECTRIC plants produce alightly less energy than nuclear many Boyt said, There are a lot of [dam] with used [in the past] he greens and lumber By refurbishing these old dams and could emen in DES meson watts of electricity. Boyt to asse sites as microhydro electric amounts they are some Conversion of Li possible dam some "could produce 118,000 mines watts on top of what we already produce" from conventional bydro-electric, he said.

Production in starting from the second to the alternative and an source to be interest in the future. The economic feasibility of and ganeration depel li on how good the wind is at a particular location Boyt said, "In good sites they am more examinate to was I have either nuclear power and

"The main thing is to position the sites for mond generation, said Boyt. Wind patterns assesse like United States but the charted in the same optimal wind at a regionally and from here mus would be carefully placed in peak areas that do not have wind became like trees, buildings, hills or manufactures.

"POTENTIAL WIND generation sites bishing old cars sites said wind genera- could provide all the United States energy," Boyt said He seems, "No sits would provide the maximum at all times. Energy could be timed into a line

Statewide conference planned

A statewide conference on higher aducation is being planned by the Council on Public Higher Education for the University of Missouri-St. Louis campus. Its main purpose is to bring together the heads of all the public four year universities and colleges in Missouri and others involved in higher education said interested citizens for an exchange of ideas about future directions for Missouri's universities and colleges.

Dr. Donald Darnton, president of Missouri Southern, is a member of the planning committee for the meeting on New, 30 and Dec. 1. Representatives of the Missouri Southern faculty, alumni, and student body have been invited to attend, as well as same legislators and business leadure.

THE CONFERENCE is designed to provide an opportunity for communication among campus administrators.

legislatore institutional beard membera. faculty members, students, business, industry and interested citizens around the state and the Coordinating Board for Higher Education

the conference participants will be three panel discussions during which microphones will be necessible to the ma-

The forum for communication

The panel members will be tree from groups dealing directly with higher education and others connected to higher education only by the leavest

DUANE MEYER, president of Southwest Missouri State University in Springfield, will be moderator for a panel on goals for higher education. This panel will discuss what more higher education can do for Misseurians.

James C. Olson, president of the University Missouri Tratem, will lead a panel is considering the man of meter

education among the state's priorities. Henry Givens, president of Harris-Stowe State College in St. Louis, will lead a group in the discussion of construction and preservation of mampass buildings.

The Council on Public Higher Education (COPHE), the fermion appeared is comprised of the presidents and chancellors of all the public senior institutions of higher education in the state. The organization provides a forum for the comes of the main four-year institutions in discuss mutual problems and promote cooperation, COPHE These are Presdent, Charles McClain, Northeast Missouri State University in Kirksville; vice president, Marvin O. Looney, Missouri Western State College in St. Joseph; and secretary-treasurer, James C. Olson, University of Missouri-

Bill Stacy, president of Southeast Missouri State University in Cape Girardeau, is chairman of las COPHE planning the conference.

Employers set campus job interviews

Job interviews on the Southern campus during November gan as follows

NOV. 3-American Bankers Ins. 1881 vices, James Scheibe; interviewing all mejors for insurance broker. December grads only. Interview takes two hours.

NOV. 5-Defense Mapping Agency; interviewing imath, physics, geography and geology majors.

NOV. 6-Armour-Dial, Gerald Fletcher; interviewing all business majors for

NOV. 18-The Paul Revere Companies. Robert Stiles, James Riggs; interviewing accounting computer science minutes and finance, general studies, management tech, marketing and management. psychology, sociology, secretarial science, elementary education, business education, and physical education December grads only.

To be eligible for an low with (except for the National Park Service) a person must be an alumnus, a December, 1980. or May, 1981, graduate and have creden-Las on file with the Placement Milite.

NOV, 11-Wright, Herfordt & Sandera, CPA, Paul Mechaner; interviewing all and counting majors for Lovel I staff account.

NOV, 12-Burroughs Wellcome Company. Stove Hunter, interviewing all ma-

NOV. 13-Thomas Dusack Company. Eugene Menze interviewing all manual

NOV. 17-National Park Service; interviewing all students, freehmen, sophomores, Juniore, and seniors.

Energy from page 6

A unique aspect of wind generation is that individuals man have their own wind generators. Boyt said, "Utilities are required to buy power from acceptances anergy sources." He said, "In fact on the California coast a private company is putting in large wind generators.

Solar calls are another alternative energy annua. "These convert sunlight illimitly to electricity. Right must they are very expensive. But by the middle of this decade the cost of solar calls are sup-posed to be one tenth of today's cost. By 1990 it should cost about 15 cents a watt," Boyt said.

BOYT EMPHASIZED, "It's Important wit the focus in on any one source. No one power plant will produce all the power it can." The difference in alternative energy and conventional mergy is that rather than a few large (aites) there are many small diverse energy-producing sites." He said, "One of the nice things is instead of having the energy in the hands of a few it is in the hands of swarp in-

bliczo-hydro, solar and wind power will develop over the next 10 mers. "Today we have passive solar energy, which uses windows, walls, will there in a house is

collect and some the majority of energy mercene to heat the lines. Along with collecting and sturing it is necessary to insulate very well. This means even when they aren't using sour the building uses about one third as much conventional fuel to heat or cool," Boyt said.

"Conservation small and United States energy consumption in half If we cut that in half today we would have no need for imports. Conservation [does not imply] doing without or depriving yourself of a lifestyle but rather getting twice the benefit from the energy you do use." said

Clark Kerr from page 5

dent went down by about 20 percent during the Reagan years," says Kerr.

HIS CONTENTION contradicts 1980 Rengan rhetoric. Last week, Mary English, a Reagan press side in Washington, argued the governor "boosted the expenditures for state colleges by 164 percent, and to community colleges by \$23 percent. He improved both the quality and access of education to studente in Californie.

Dr. John Lawrence, a member of the California Board of Regents now and during Reagan's second term, says the governor was "an outstanding supporter of the university system."

"He realized then as he does now that the country's future depends on men youth, so he and a lot to help them out," LANGERS BAYS proudly.

KERR, HOWEVER, explains the discrepancy in the Reagan rhetoric from the Reagan reality by pointing out that the enrollment in California Male univerarues doubled during his terms, and the inflation rate also increased significantly. Thus, while Reagan did raise the total allocation to higher education, the other factors a langual that hike.

"Sure the gave as more money, but it wasn't enough," Hear says. "With an many more students, and higher inflation, as actually lowered the amount per average all each student."

LAWRENCE, WHEN CON-FRONTED with that charge, simply said he couldn't in all "all the details and figures" but that Reagan was still a great governor for higher education.

He also was the first governor, Kerr says, who proposed that tuition be impos-ed at all of the ains campuses. The regents rejected that proposal, but did in-minus certain "fees" which had not been applied before. They still exist.

But it is um the lasue of police force which caused the greatest friction between Reagan and the university system.

KERR SAYS it began during Reagan's campaign in 1966. At that time, residents were becoming increasingly annoyed with the signs of student revolt. Reagan campaigned an the theme that he would get rid of "that mess in Berkeley." At one point in the campaign, East says, Heagan would refer to an alleged orgy which occurred at Harmon Gym at Berkeley, Each. time he mentioned it, the candidate would display a piece of paper which, he said, was a district attorney's report on the incident. Reagan would refuse, however, to

read the report, fearing that people would be too upset with the details, says Kerr. Kerr, who need chairs the Carnegie Council on Policy Studies in Higher

Education, checked into the matter and found there was no such report. "It was simply a ploy in armies the public," Kerr recalls angrily, "and it

LAWRENCE SAYS he doesn't recall the incident at all, arguing that he didn't become a regent until four years later.

"That's crazy. The story about the orgy was all over the state," Kerr says. One example Kerr uses to demonstrate Reagan's insensitivity to student unrest was the famous People's Park incident in March 1969. Berkeley students, unhappy over the administration's decision to convert a beautiful park into a new dormitory, blocked access to the park. The park, they reasoned, belonged to the students and shouldn't be used for m

"TO GET THEM OUT of there, he used the police to spray a gas, stronger than regular tear gas, the kind of stuff we used against the Viet Cong," Kerr charges. "It caused kids to vomit, and some were injured. When I was president, we never had any injuries.

"He would use force like that whenever he felt things were getting out of hand,"

Lawrence, however, defends Reagan's use of force, saying "a mob like that can't be allowed to take over a university."

THE REGENT also questions many of Kerr's other accusations, implying that he's being vindictive because he feels Reagan had him ousted. In fact, says Lawrence, the regents-not Reagan-fired Kerr.

The regents are the ones who voted to get rid of Kerr, not the governor. He has no power to tell the regents what they have to do," he said.

Kerr is presently not worried that a President Reagan would severely limit the amount of financial resources available to most schools. He believes a president does not exercise much control over the antion's colleges and universities. His primary concern, though, is that Reagon will stifle the intellectual climate in the country

Charle Hitch, who succeeded Kerr as president of the University of California, says Reagan's "simplistic approach to symblems would not encourage intellectuni debate."

_The Arts-

Scott Arkle and Rita Henry drew the audience a appreciation at last night's opening of 'Angel Street The play runs tonight, Saturday night, and Sunday afternoon in Taylor Auditorium.

'Angel Street' gets reviewer's approval

By J. Todd Will

Like last year's fall play, The Mousetrap, Missauri Southern's Beatre department same to be developing a tradition for offering suspenseful entertainment. The sum play, Angel Street, opened last night and will run through

Written by Patrick Hamilton, the story centers on the house of Jack Manningham Suring the Mills in Victorian England Jack Manningham is in the process of terrorizing his wife to the point of insanity. It is through lim wife, Bella Manningham, the audience concludes how insane Manningham is and what has to be done to solve her problem. Illie is aided by the handy detective, Inspector Rough, who has been following Menn-

Director Trij Brietzke, who also brought forth Mousetrap, less executed this stage play as well. Brietzke seems to have a flare for giving chances to the inexperienced actors and also am obsession with the realm of the unknown. Both qualities are exhibited in the current play.

RITA HEAHY gives her best performance to date as Bella Manningham Previously make of Henry's work had been supporting or SAUE parts. She did portray the rain of Lady Macbeth in Macbeth but only some off hall successful due to the complications of working with Shakespeare. Last year, though, Henry was featured in the student production of Same Time, Next Year which was outstanding. Was showed a keen ability to develop a character, display comic timing and fulfill the requirements of a

It was no surprise that his Henry can pull off the role of Bella Manningham. Unfortunately the majority at the audience will have no idea of Henry's past abilities. The story centers on the character of Bella and with the precise amount of acting, the role and he termed tour the force. It's sort of An Unmarried

Woman in the 1880s.

It is Heary's concentration of details which gives her the winning performance. Bells has been ruled by Jack Manningham for so long that she has developed a shy, yet jerky, temperament. Henry displays these quirks with grace through her gesture and write articulation. When the climax of the play evolves, the audience becomes so rapt with her character, you want to give her the biggest love hug.

ALSO IN LEADING ROLES are Scott Arkle as Jack Manningham and Tim Sprekle as Inspector Rough. Arkle, last men in Mousetrap, adds the right amount of dimension to his psychotic character and lillills the looks with his slim height and dark-bearded face. Sprekle jumps into the play with his acting debut. For his first shot, as gives a hard try with the major role. Throughout the play he does an apt job though at times his consistency falters.

Giving strong backing in the supporting roles are Janet Haraney as Elizabeth and Maureen McCullough as Nancy. Both play the hired help and aid produc-ing comic relief. Hackney gives her Missouri Southern debut and Mc-Cullough is a veteran most recently seen in the leading role in Born Yesterday.

In the seem of production design Angel Street rises above the ordinary. It wasn't many years age that had theatre was adjusting to the newly acquired space in Taylor Auditorium. Their designs lack the grapes mage of the stage space. In Al Raistrick's designs of the Manningham home, all areas are used. Raistrick has a knack for constructing sets, especially when it numer to stairs. Also, Nelda Lux's work on costumes should be noted. When producing a period show, such as a Victorian play, the man day with a large amount of research and work. Also, the smage of key colors and surisums of line add to the psychological aspects of each of the characters.

PhotoSpiva opens

Exhibit to open Sunday

PhotoSpiva , a national photographic competition, will go on exhibition Sunday at the Spive Art Center. Some 136 . photographs were chosen for the exhibit tion of 664 entries by 198 photographers from 20 stores and Australia Jim Alinder, executive director the Friends of Photography, Carmel, Calif., served as juryr for this grams competition

After completing his selection, Alinder commented that "the competition is now one of the nation's most important. Its most significant continuing contribution Is the identification of exciting new work by younger photographers emerging from the large group @ leaser-known practitioners. I selected a group of 136 prints for this exhibition. They represent a very wide range of acothetic concerns; yet I believed all to M good works of art which

deserved to as seem by a larger audience." The greening has PhotoSpive M will he from 2-5 p.m. will awards presented at 2:30 by Will Christensen, the art center director. Cash awards in the amounts of \$300, \$200, \$ HIII (3), and seven honorable

Dylan: The music's changing

Jim DeGraff

Reporter. What is your belief in God? Are you a Christian?

Dylan " first of all, God is a woman. We all know that Well, you take it from there.

Bob Dylan, circs 1866, His means on the question was as always, milliated in a haze, a poet's auseus perhaps. Was Dylan trying to avoid the greation by responding with a mass answer, or was he just forcing us to analyze the response and draw on our own conclusions? For the small part, it left the matter at his religious beliefs hanging in

Are you ready for the judgement? Are you ready for that terrible swift

Are you ready for armageddon? Are you ready for the day of the Lord? Are you ready?

I hope you're ready. . Bob Dylan, circa IHE

Nothing vegue about were lyrics It's simple. Dylan is literally trying to some hell and of us. I am lyrice are from the cut "Are You Ready?", one of nine songs that and up Dylan's latest album Saved.

DYLAN MAN DEFINITELY changed No seem do the lyrics contain underlying social messeggs, messages that require the listener's utmost allers in order to the essence of Dylan's point No more poetic riddles, no mire strange

lyrice that intellectuals could delve into and analyze, each making to his or her own conclusion of what Dylan's message is. The Bob Dylan of 1980 tells his story in black mil white, not color. In other words, Dylan's songwriting has more or less- med I have to say it-conventional

Dylan's last album Slow Train Coming yielded at least two classics: "Slow Train' and 'You Gotta Serve Somebody." Both of these and showseesed Dylan's songwriting with fresh and unconventional lyrics that bore the trademark of Dylan's genius. The songs also succeeded in that they didn't obscure Dylan's message. The message was clear cut and pristine. He was telling us that he is now a Christian. And the manier in which as conveyed it to us was will brilliant and original

Most Dylan lass agreed that Slow Train was a classic album. Its contents were yet another illustration of this everexpanding artist. The religious aspect of that album same both respected and admired by faithful Dylan fens.

OF COURSE, there were those who booed Dylan and claimed he didn't rock and roll any more, but this these particular people ever understand the were of Dylan? If they had, they would have seems to terms with Dylan's beliefs and applauded him for his unique fashion of presenting them to me. And that fashion had never really changed. It was still pure and unadulterated Dylan. The only thing that changed was the content.

This brings us back to the album Saved. This album represents a radical change for Dylan. Now the content is the same, but the style has changed. And the general opinion is that the change is for the worst. The lyrics of these sungs are an much muce conventional that there is no conclusive evidence ever to hint that Dylan had anything in so with the writing of these songs.

And yet, with the exception of one Dylan wrote seven of these songs and co-wrote another. The basic components of a Dylan song are missing. As a matter of fact, there is little to separate these songs from millions of other Gospel tunes written by lesser talented songwriters.

I DON'T THINK that Dylan and the fine himself like this for much longer. The fact that Dylan now sings of religion didn't confine his talents on Slow Truing Coming. Unfortunately, it has an Saved.

The cut "What Can I Do For You?" finds Dylan blowing a beautiful harmonica solo, steeped in the blues, a revelation in itself. As I listened to this cut, I found myself thinking back to Dylan's first album which was simply entitled Bob Dylan. Dylan at 20 years of age sang una of the finest Gospel folksongs swer written It was called "Gospel Plow." And Dylan, with only his acoustical guiter and harmonica, laid out en inspiring and convincing performance, not so much is the lyrice but in the exhilirating manner in which he same it. There's will much of that type of excitement in the album Saved.

'Private Benjamin' rates as 'good'

By J. Todd Bill

As the credits rolled by on the lines Private Benjamin, I couldn't help feeling ambivalent down what I had just watchand. Sure, the film followed in the tradition of such modern classics as Kramer vs. Kramer and Starting Over, attacking social issues through the viewer's senti-But it's just before our national election, one where our country may be questioning the decision about run beliefs in war. To me Private Benjamin displayed as over-abundance of pro-war antica.

That's not as say Private Benjamin isn't a well-made film. I'll be the first to admit that it's an example of outstanding Miss work. All the elements and up-apt acreenwriting, featuring plenty of humorous armis, several distinguished actors, and a director who knows how to put together a story

It's just seeing Goldie Hawn, who also produced this film, mess through the army. I'm sure the army is a good place to yourself together but it seemed too happy if a simulation It wouldn't surprise

if the army recruiter wrote the script. Most noted are Mary Kay Place as her It sort of resembled a lot of the old army close friend and P.J. Soles as the recruit movies where everyone at the end sang and danced off into the sunset. At least you were laughing at her problems.

BUT ENOUGH of my blasting away at an enjoyable film. It was great to am a film with good qualities in Joplin again. Perhaps the highest point in this film is the assembling of actors. Not since Nashville has so many great character actors been used. Don't mistake me in referring to Nashville. These films are totally different; just the usage of actors our relates.

Benjamin, Goldie Hawn, the Jewish princess who joins the army to relieve her sorrow over her ill-fated groom, there are her parents, Sam Wanamaker and Barbara (Breaking Away) Barrie, who de portrayed by Albert Brooks, who accidentally dies while climaxing in and Brooks is always humorous.

Judy decides la join the army after being brainweshed by the recruiter, Harry Dean Stanton. When Judy strives at the Barbra Streisand's Main Event which camp she encounters all types of girls. also left the same impression.

who does everythging perfectly.

PERHAPS MOST ENJOYABLE is the acting of Eileen Brennan. Already familiar to sudiences from several Neil Simon comedies and variety television spots, she proceeds to develop m reputation as an able comedienne. In Private Benjamin she portrays the strict officer in charge of all the new recruits. Some of the less lines are delivered by Brennan.

After Judy leaves boot camp, she even-For example, besides the role of Judy tually winds up in France. From there she gets involved with a boyfriend gynecologist played by Armand Assante, He is the basic French playboy and Judy's problems just begin.

Overall the movie is sort of An Unmareverything but help Judy. Her husband is nied Woman with comic touches. Most of the characters in the movie are based on stereotypes. It's just the ability to forge pass them that carries this movie. Director Howard Zieff has plenty of experience with this type of film. His last one was

-Sports-

It will be Wildcats tangling with Lions

Missouri Southern's Homecoming apponent this Saturday afternoon will be Wayne State College, Kickoff is 1:30 p.m. in Fred O. Hughes Stadium and the proper will be televised by KTVJ.

"Homecoming is an exciting time on our campus, and Coach Jim Frazier. "But with all the activities, we can't allow our practice time an be disrupted. The grand finals is the grant itself, and we want to us ready."

Wayne State sesses into the contest with a 4-3 manus record and 3-2 CSIC mark The Wildcate are tied with Missouri Western and Pittsburg State for second place in the conference and still have a chance al a post-season bowl appearance. Southern is in sixth place

league play 51 2-3. The Lions hold a 2-1-1 series lead over Wayne State. Ron Harris' 88-yard touchdown sprint gave Southern an 18-14 was over the Nebraskans last season. The

two manuals battled to a 16-16 tie aug weeks that in Hughes Stadium.

SOUTHERN AND WAYNE State have played four common supponents we to Ulle point Both Malated Emporie State (Lions, 14-7), (Wayne State, 20-0). Both lost 12 Pittsburg State (Southern 21-28), (Wildcats 7-37). The Lions slipped past Missouri Western 21-20 while the Gillions crushed Wayne State 57-34. The Wildcats were victorious over Fort Fines State 34-30, but Sault and dropped a 34-12 decision.

Leading the Wayne State offense is senior quarterback Rick Land Par Maxwell, a triple-threat performer. Lade, a left-hander, has completed as of 99 passes for 710 yards and mine touchdowns. Kelly Name has also must mile a quarterback. In all completed 33 all 28 passes for all yards and Six sames. Maxwell catches passes,

returns punts and kickoffs, and handles punting chores has ton Wildians. He has been Lade's and Neustrom's favorite target, with ill receptions for 590 yards and three bou littleams. Tight end light ingrum has caught 22 passes line 319 yards seven touchdowns.

Wayne State ranks second in the CSIC passing offense, averaging 190 yards per game through the air. The Wildcats have 146 points on the board, or 21 per con-

"THEY'RE THROWING the more this year," and Frazier, "than they before. Wayne has gone to a multiple formation. They had excellent tight set play."

Defensively, Wayne State has allowed 175 points, an average of 25 per game. The Wildcats are fifth in the league in total Tony Scudder and Stress Dennis because the line. Cornerback Steve Atamian has three interceptions on the year. Said Frazier, "Wayne has shown many different looks. They have given up many long yardage plays."

Wayne State Coach Del Stoltenberg had these comments about the Lions: "Southern is very strong defensively with good size and ability. We look for a tough game because the corners and safety positions frequently blitz."

Stoltenberg continued: "Offensively. the Lions run a lot of isolation plays. Our defense will be looking out for this. The weather at present could prove to be a detriment to our practice times. Southern has no problem with the weather because of their artificial turf. We are looking forward to an exciting game."

Southern will be without the services of sophomore Joe Mehrer and junior inebacker Mike Flaig for the remainder of the season. Both suffered knee injuries in the Missouri Western game. Flaig

underwent surgery last week while Mehrer had surgery yesterday to repair cartilige demage.

MEHRER STARTED six games for the Lions, completing 64 of 118 passes for 506 yards and three touchdowns. "Joe kept giving his team the opportunity to win the game," said Frazier, "by allowing very few turnovers. He completely comprehended what we were trying to do. Joe did a good job for us this season.

Kevin Ahlgren will be the starting quarterback on Saturday. Kenny Brown, who suffered a pulled hamstring against Western, is expected to open the game at fullback Tony Harris and Ron Harris will alternate at the tailback position.

Said Frazier, "We're glad to be playing our three remaining games at home. It was rough playing five of our first seven games on the road. Our schedule was very unusual and demanding

Nancy Jordan (14) and Fatt Killian (LN go above the was for a double block The volleyball team is preparing for the MAIAW District II Tournament on Noc. 7-8 an Missouri Western.

Volleyball Lions end CSIC play with fourth place tie with Hays

The Lady Lions volleyball squad finished the season in a fourth place tie is the Central States Intercollegiate Conference with Fort Hays State University. Southern with seven miss and seven losses to gm .500 in the conference for the season.

Finishing first in the CSIC race was Kearney State with Pittsburg State in second place and Missouri Western in third. Missouri Southern and Fort Hays were

fourth. The Lady Lions and Pittsburg State went it last Tuesday night. Free Trees Joanna Swearingen and senior Falls Killian and Mary Carter turned in outstanding performances but m no avail. Southern lost in three straight

When Southern played Wayne State again Swearingen and Carter played well. But this time junior Bey Johnson threw in a little muscle to pull out a victory.

Southern dropped the mai match in Fort Hays in four gramm. The the same three straight games.

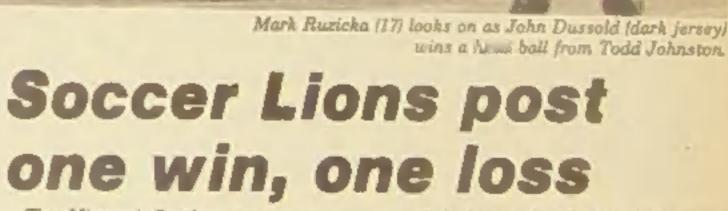

"We played well at share and set so well at other times," remarked Coach Co Ce Chamber "We seem to have trouble in presence situations, but we ran mer plays and and are improving in any play

The Lady Lions lost its mount Central Missouri an Tuesday night They will play host to Southwest Baptist at home Friday night Southern and Southwest Baptist have and played each

other since 1978. Southern won that match with a pair of three game sweeps.
On election day, Nov. 4, Southern will and in regular masses play with a match at Northeastern Oklahoma

will be good preparation for the state tournament." said Coach Chamberlin, Illi Nov. 7 and 8 travel to Missouri Western to play in the Missouri Association of Intercollegiste Athletics Womens (MAIAW) Division II Tournament.

During the week of Oct. 13, when The Chart was me published, the Lady Lions won four and lost two. The last sems were over Northesstern Oklahoma, Evangel, Emporie State, and Wayne State. The two were to the University of Missouri-Kansas City Lad CSIC winners Kearney State.

The Missouri Southern soccer team defeated Baptist Bible College on Oct. 21 by a score of 6-1 but was unable to post a victory against District 16 rival Rockhurst this past Saturday as they lost

Currently the Lions are ranked 20th in Metional Association of Intercollegiste Athletics poll. The Lions' record is 14-3 due to the fact that the Lions were awarded victories by forfeit over Tulsa University and District 16 rival Avila College.

SOUTHERN'S 1-0 LOSS to Avila has been reversed to a victory because of the use of an ineligible player during the match. Centerback Bob Butler was the ineligible player who caused the Avila Avalanche to forfeit 16 of their matches this season. Butler failed to pass enough steel hours before he transferred from St. Louis Community College at Meramec to Avila.

Due to the forfeits Avila's record drops to 0-17-1 and there is a possibility that Avils will not be able to participate in the playoffs.

in Southern's metch against Baptist Bible, the Lions started off alowly and found themselves trailing by the scure of 1-0. The goal was scored by Steve Woodberry and the assist was by Dave

BUT THE LIONS GAINED their composure and battered the Baptist Bible goal with 46 shots and six of those shots found the back of the net.

Freshman Chris Diver accounted for three goals and one assist. Alberto Escobar scored two goals and Mark Ruzicka scored on a penalty kick. Chuck Womack assisted on two of the Southern goals and Rob Lonigro and Todd Johnston assisted on the other goals.

Southern was not as fortunate in their District 15 game with Rockburst. The Lions played the Hawks a very even

match during the first half as both teams registered six shots at goal and each goalkeeper had to make two saves.

DURING THE FIRST HALF. Southern had sums choice opportunities but falled to capitalize. Chuck Womack's shot sailed wide of the goal. Alberto Escobar's shot on goal was saved by Jim Halaz and Mark Ruzicka's shot was stopped at the defense.

But in the second half the Rockhurst Hawks began to dominate the flow of the game. In the second half the Hawks outshot Southern 17-1. The only shot that the Lions could muster was the penalty kick that was scored by Mike Bryson.

Rockhurst broke the scoring deadlock when Jim Dussold's head ball deflected in off the crossbar giving Rockhurst a lead they never relinquished.

DUSSOLD ADDED one more goal for Rockhurst and striker Jim Boehm tallied two goals to give Rockhurst their 4-1 vic-

The Lions' next game will be against District 16 member Harris-Stowe in St. Louis this Friday at 1:30 p.m. If the Lions defeat Harris-Stowe they will be ranked second in the District 16 behind Rockhurat.

"This is a very big game for us," said Coach Hal Bodon. "We need to win this game in order to give us a better chance of hosting more than sus playoff game here at Southern.'

SOUTHERN WILL HOST Belbaven College of Mississippi on Nov. 8 in Fred G. Hughes Stadium at 1 p.m. This game will be the beginning of playoff competi-

"I am very hopeful that we might be totally healthy for this weekend's game. We should have the same people available for the Harris-Stowe game as we started the season with."

Mix pass interceptions:

Southern turnovers overturn Lions as Fort Hays wins 34-12

mans last Saturday enroute to a 34-12 victory over the Lions. Fix pass interceptions-a new sanct record for a single game-and mill lost fumbles with too much for the Green and Gold to overcome.

"We definitely did not play one of our better games," said Coach Jim Frazier. "We kept digging our own grave with all those turnovers. Fort Hays is not as good a team as Missouri Western, who we beat last week. We just been ourselves by miving up the ball and by missed assignments."

The defeat probably ended Southern's chances | landing a post-season playoff berth. The Lions sank to 3-3-1 on the year and 2-3 in me Central States Intercollegiate Conference. Fort Hays raised its overall mark to 3-4-1 and 2-2-1 in

league play.

Keith Littlejohn's fumble at the Southern five led to the Tigers' first touchdown, Jeff Briggs carried the ball over a play later from the four for the sours with I is left in the first period.

FORT HAY'S assent tally came me a one-yard plunge by Briggs with 11:24 left

vantage of eight Missouri Southern turn- touchdown was set up by a pass in- sion means failed when Ahigren's pass terference call against safety Darrell Scott in the end zone. Kally Saxton blocked the extra point attempt, but his club trailed 13-0.

> "We protested his interference call." and Frazier. "Darrell clearly and the inside position. The official made a judgment call because he wasn't in the right position to clearly see the play.

> Mark milli elesm basted field goals of 31 and 21 yards after that his the Lious. Fort Hays took a 13-d how into the locker room at halftime.

BRENT BLAU'S 46-yard post return to the Southern 16 and the Tigers' third touchdown of the afternoon. Quarterback Rick Mondt passed 13 yards to fullback Tony Federico for the man a play later.

Southern's offensive unit gave up the final two touchdowns in the Kansans. Quarterback Kevin Ahlgren limited in his own the zone, and the Tigers' Scott Jones recovered the ball for min points. Freshman Jeff Kilbane's was returned 24 yards for a score by Brad Webb late

Tight end Jeff Schweitzer put a Lion touchdown in the board, calling a one yard deflected pass from Ahlgren with

Fort Hays State University look and to play before intermission. The 7:22 left to play. The tampoint converincomplete.

> "WE JUST DIDN'T execute in the best of our abilities," said Frazier, "We didn't understand and adjust to their plan like me should have. Mussell assignments are still hurting us. We shouldn't have my this late in the season."

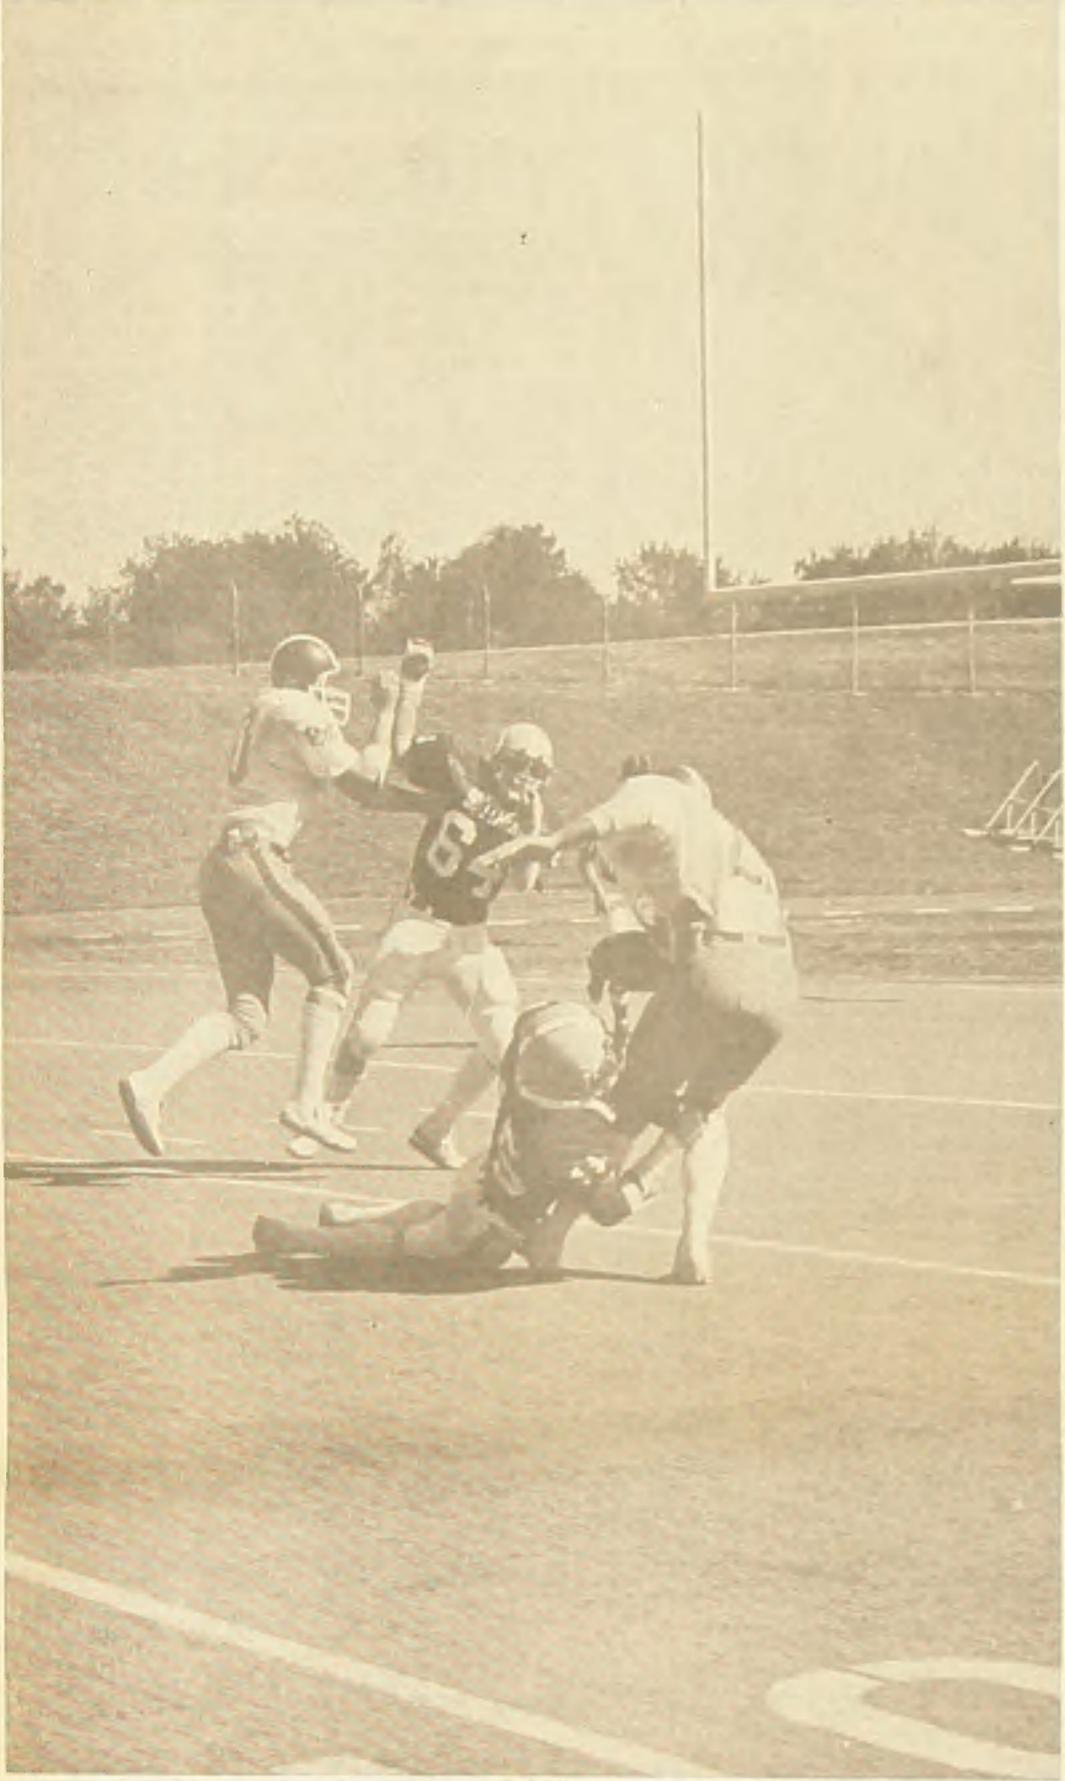

> Kilbane-meking his first appearance of the season-and Ahlgren were each guilty of three pass interceptions. Southern finished Und day with 282 yards of total offense, 174 through the air. Tailbacks Tony Harris and Ron Harris gained 79 and 58 yards rushing, respectively. John Anderson was the Lions' leading with five catches for 72 yards.

> The Black Shirts again played and outstanding grant. They limited Fort Hays to 237 yards of total offense, including only 69 passing. Glen Baker recovered a fumbled punt and Alan Dunaway intercepted has second green of the year. Linebacker Stan Gardner topped defensive charts for the second Braight week with five sole tackles, seven a quarterback sack.

Mark Ruzicka (17) looks on as John Dussold (dark jersey)

Black Shirts add to football traditions

Ozzie Harrell attempts to wrestle a Fort Hays was carner to the turf.

Dave Nevill (64) wards off a blocker on his way to aid in the tackle.

By Chad Stebbins

Defensive coordinator Rod Giesselmann and the cosching staff at Misseuri Southern are trying to build a tradition of excellence in Lion football. Southern's defensive unit-the Black Shirts-are a part of that tradition.

Starting his second year at Southern, Giesselmann established the Black Shirt concept last spring and the team voted to accept it. The name Mans Shirt is derived from the fact that certain players are allowed to wear black jerseys during praccarned a black shirt, and the jerseys are handed out every Monday.

"To deserve a black shirt," said Giesselmann, "you must show leadership, take pride in yourself and your school, and be a quality performer. The players work hard to get one, and even harder to get it back. We get on them if they lose their Ramal Shirt. They take great pride in having one.

EVERY MONDAY MORNING the senior defensive players, along with unior Stan Gardner and sophomore Mike Petet, meet to see the psychological attitude of the team. It is an informal meeting that helps to solve problems the team may have, and brings the group closer together.

The Black Shirt tradition first started at the University of Nebraska," said Giesselmann, "about a dozen years ago. You was go into their student bookstore and buy your own 'Black Shirt.' Several colleges and universities now have the Black Shirt concept. I would like for that tradition to get started on our campus."

In 1979 Southern's defensive unit was last in the Central States Intercollegiate Conference in total defense, allowing 333 yards per game. There is a complete reversal in those statistics this manual The Black Shirts lead the CSIC in total defense, limiting their opponents to 264 yards per outing.

Giesslemann partly attributed this turn-around to the coaching staff. "Our linebacker coach-Warren Turner-came over from the offeres at the beginning of the year. His 16 years of experience really help out Frank Crosson works with the tackles and noseman and does a fine job. Mike Keith coaches the ends on a part-Man home and Louis Fees helps with the secondary. Louis has aspirations to be a coach someday."

TURNER, who is also the Lions' head coach, joined Jim Frazier's staff four years ago. He spent 11 years in the Joplin R-6 School System Crosson seems Shift Ottawa University Bus season and coach. He has guided his charges to a 2-0 mark an in this point. Keith was a standout defensive end for Southern from 1974-77. Fees saw action for the Green and Gold last year.

Giesselman credits the improved play of the defensive unit for the success. "We're getting great leadership from our seniors," he said. "The down linemen are giving us good pass rush. Our assundary has a good and of experience. Teams don't find it very successful to throw the

against us. Frazier believes that the Lions' offengive unit has neiped the Black Shirts lead the CSIC in total defense. "We aren't turning the ball over that much this season." is said. "Last year our quarterbacks threw 24 interceptions and we lost 16 fumbles. That doesn't give your defense mount of a chance.

The Black Shirts have several goals which they try to achieve for each german The number one emphasis is placed on winning. Other goals include holding opponents to under 10 points, 125 yards rushing, and 150 yards passing, and sacking the quarterback twice, recovering two fumbles and intecepting one out of every 10 passes thrown

"WE GIVE INDIVIDUAL awards to the players," said Giesselmann. "You receive a 'skull' if you make a tackle for a lose, have a quarterback sack or intercepup a pass. The most outstanding back lineman also receives a skull.

Hammer awards are presented for an outstanding tackle or great hit. One player is also honored each week from the white offensive squad. The white offensive squad runs the plays that the Lions' upcoming opponent is expected to use. Said Giesselmann, "We feel that every player on the scout squad is just as important as our starting performers.

Southern operates a 5-2 defense with a reduced look Senior Roger Hoenes (6-3, 190 pounds) and Petet (6-2, 196 pounds) are the defensive ends. Hoenes was an All-District 16 selection in 1979. "Roger has shown great leadership," said Giesselmann "Ma is like a coach un the field. Mike has been improving every week and has been equal to Hoenes the last three games."

JUNIORS TOM FISHER (6-2, 230 pounds) and Kelly Saxton (6-2, 230 pounds) are mainstays at the tackle posi-tions, Fisher transferred from Southwest Missouri State University while Saxton from Hutchinson Junior College. Said Giesselmann, "Our tackles complement each other. They make things happen. Both have a good pass rush and are very aggressive. Was Rodgers (junior, 6-3, 220 pounds) filled in for Fisher when he was injured and was a pleasant surprise."

Added Frezier, "Fisher, Saxton, and Rodgers play well above average. Their support has helped Pete Sullivan at noseman."

Sullivan (senior, 6,0, 220 pounds) played on the offensive line last season for the Lions, He moved to the other side of the during spring practice. "Pete has done at excellent job," said Giesselmann "He has shown good techniques and leadership and is all

SENIOR DAVID NEVILL (6-10, 210 pounds) and Gardner (6-0, 200 pounds) and the linebackers. Nevill is also a transfer from SMS, while Gardner is a three-year starter for Southern. Said Giesselmann, "Stan is our best overall linebacker and leading tackler. David hits the hardest. Also seeing action are Dave Dageforde (junior, 6-1, 210 pounds) and Mark Bock (sophomore, 6-0, 200 pounds). Dave is our best pass dropping linebacker and Mark is wan best stunting linebacker. We try to use everyone's individual strength to belp the total defensive effort. Our four linebackers are more disciplined than the linebackers were last season."

Southern's secondary tops the CSIC in passing defense, allowing only 60.5 yards per game. Opponents have completed me ly Il percent of their passes for two touchdowns the entire year.

Seniore Ozzie Harrell (5-11, 175 pounds) and Darrell Scott (6-1, 190 pounds) are considered pro prospects as defensive backs. "They both will be looked at by pro scouts," said Giesselmann. "Both have the size and speed to make it. Ozzie and Darrell make our secondary good."

John McAllister (senior, 5-11, 134 pounds) IIIIs the safety position. Said Giesselmann, "John has done well at making the plays that moves to him. He even helped out at the fullback position last means when we ware short handed."

At the rover position is freshman Alan Dunaway (5-10, 180 pounds). "He came in and took the job away from Carl Cromer," said Giesselmann "Carl (senior, 6-4, 200 pounds) has helped us by playing several different positions. Glen Baker 6-0, 175 pounds is our best freshman backup. He started our first game of the season when Darrell was hurt did a fine job.

Parkwood senior has offers from colleges and pros

By Sharon Caughlin

Athletics have always been a natural part of life for Parkwood High School senior Alan Cockrell. At 215 pounds. Cockrell is a triple-threat to Parkwood opponents due to his outstanding abilities in football, baseball, and anaman Though he was first approached last year by college coaches offering scholarships, this year's offers expand to professional possibilities such as offers to play with major league baseball frame right out of high school.

COCKRELL, 17, remembers participating in sports since the third grade which, at the time, was the earliest grade in which boys were allowed to participate in ethletics.

As a young boy athletic abilities came easy for Cockrell and seemed to be as natural as getting up in the morning. He never had to work very hard to be sucpesaful back in those days but recalls, "Naturally as I grew older the element of

competition grew as well; as of course, as time has gone by, I have had to practive and drive harder for what I wish to achieve."

Multi-talented in all areas of sports, Cockrell is quarterback for the undefeated Parkwood Bears, forward for the backetball team, and centerfielder for the baseball team.

FOOTBALL AND baseball are Cockrell's two favorite sports and he feels he excells in both areas, but deeneding on the season, he participates in each sport the best of his ability.

"I 'payche' myself up for each sport, he says. "Therefore, in the fall, football is fevorite sport; during winter, basketball is my tavorite, and in the spring. I am totally involved in baseball.

"My parents have always encouraged me in the area of sports," he added. "My dad used to be a coach in Senece, and he has always, as far back as I can remember, been my coach."

The senior Cockrell grew up on a farm, so when it came to encouraging Alan in different areas of his life, he seemed his son to have all the opportunities has himself was denied as a result of growing up on the farm.

"MY MOTHER has always been just as encouraging as my father, though she seems to prefer my playing seculated as opposed to football because of the many dangers involved in such a rough sport, says Cockrell.

Cockrell was first approached by coaches during his junior year

"Coaches from all the big schools would come to Parkwood last year to watch of Scott Conners, who make coaches were after to muit. In those films the coaches would notice men and had the about recruiting me my senior

year, he remembered.

This year he has been offered footballbaseball scholarships by all of the Big 8 colleges as well as by University of California-Los Angeles, Notre Dame, Vanderbilt, and Arkansas

BESIDES RECEIVING offers from colleges. Cockrett has also received offers from such major league baseball teams as the Kansas City Royals and the Philadelphia Phillies. He will participate in the June draft as well as camp in Kensee City this uses

Cockrell admits that he is under an surtreme amount of pressure right now from all the offers he has received as well as from the fact that he has is be thinking and turning over in his mind the many decisions he will eventually have to make.

He also adds another factor contributing to the pressure he feels is the image of Parkwood as being a superior football man, since they are number one in the state, and that there is quite a lot MI hard work involved in being and staying in first place.

COCKRELL STATES that there are a few minor drawbacks to hie participation in athletics, such as on Tuesdays and Thursdays, which are the heaviest practice days. If there is a test in any class the next day, it is almost impossible to find time to study for it. His grades do not

seem is suffer too much, though, as maintains a steady 3.5 grade point average. He also adds that the many long hours of practice do not ever hinder him from doing other things he might enjoy. or that other boys his age enjoy. The he is mainly happy when he is practicing or

As of now Cockrell has not made any decisisons towards acceptance of any offer, nor does he really have any preferences yet. He, along with his father, are just going to sit back and observe and every offer and wait until the best unit ment along

He feels it is a go honor to be approached by an many colleges and coaches. He says, "It is a dream come true in experience what I am now experiencing because all my life I dreamed of talking to coaches and being good enough to be offered scholarships in really good schools, and now it is happening."

HIS PARENTS are extremely happy for him, as are his many friends. He does not less his identity at Parkwood has changed much as a result of his success.

"As a matter of fact," he says, "when I first moved an Joplin my freshmen year, that is when my classmates thought I was a snob and stuck up." Cockrell explained an assess for this is

that be moved to Joplin from Riverton,

Kans., where he attended a much smaller

school. He found adjusting to a new environment as well as getting used to the larger school difficult. Also adding to his difficulty was the fact that he was shy and never really spoke unless spoken to.

AS YEARS WENT BY BI Parkwood, Cockrell became known for his athletic abilities and made many close friends. He feels his true friends, as well as anyone who really knows him, realize he has not changed because of success. He adds that life best friend, Terry Wemer, is one persun who can relate to what he is going through since Terry, too, is being approached by many college coaches.

Head Coach Dewey Combs of Parkwood has, understandably, tried is influence Cockrell's decision towards accepting a football scholarship from a Big 8 college, whereas his baseball coach Sam Adams has always encouraged him towards baseball.

Cockrell has been afformed \$65,000 a year to sign with Me Kansas City Royals and feels that if he is accepted by the Royals and the price is right, that he will sign with Kansas City or another major league team instead of accepting scholarship.

Though these plans saw still in the consideration stage and may change tomorrow or the next day. Cockrell has until February of 1981, the deadline for making his decisions, to relax and play golf and tennis, his two hobbies.
